

## FOR SAILORS LOOKING FOR GREATER COMFORT WHATEVER THE WEATHER...

The characteristic multihull mainsail. The choice of whether to have a removable gaff batten will depend on the willingness to prioritize the modern look and performance, or the ease of operation. DELTA Voiles can install an automatic removable gaff batten system.

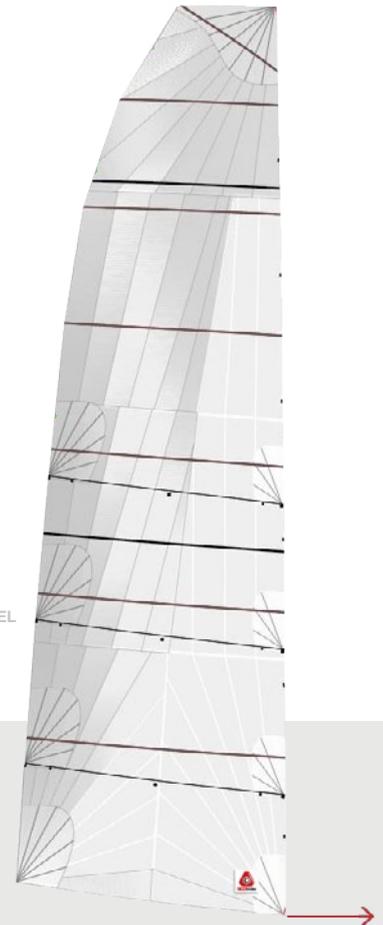

### STANDARD FINISHES

- Reefs: 2
- Sail shape visualization strip
- Batten receptacles with webbing on M10 or M12 sliders or studs for any batten cars on the market (HARKEN, FACNOR, RONSTAN, etc.)
- Batten pockets
- Luff: intermediate cars with elastic
- 5 full battens
- Anti-UV treated yarn
- Panels glued before assembly
- Leechline: exits leech at each reef point with aluminum clam-cleats
- Telltales on leech
- Clew: stainless steel cringle with webbing or crimped stainless-steel eyelet + Velcro® strap around boom
- Tack: stainless steel cringle with webbing or stainless-steel eyelet
- Luff reefing points: depending on fittings
- Leech reefing points: crimped stainless-steel eyelets
- Large radial reinforcements: 7 in total
- Headboard: aluminum plate or stainless-steel ring with webbing
- Sail bag

### + CRUISER/RACER OPTION

- **Specific study of the sail area and its design** to satisfy the class requirements
- **Sail numbers**
- **Cunningham**
- **2<sup>nd</sup> visualization strip**

# SQUARE-TOPPED MAINSAILS WITH A BIG ROACH

REMOVABLE TOP BATTEN MODEL IN TRIRADIAL CUT
