

HORIZONTAL FURLING CRUISING MAINSAILS

IN-BOOM FURLING CRUISING MAINSAILS

TRIRADIAL-CUT MODEL

FOR SAILORS LOOKING FOR GREATER COMFORT WHATEVER THE WEATHER...

This system, preferred by those looking for the performance of horizontal battens, needs to involve a specific sail cut.

DELTA Voiles has developed a sail cut with Profurl® and Leisurfurl® systems that combines the power of the sail profiles and their ability to furl neatly.

STANDARD FINISHES

- 4 long battens
- Sail shape visualization strip
- Leech: boltrope
- Leechline: Aluminum clam-cleat
- Telltales
- Anti-UV treated yarn
- Panels glued before assembly
